**DETAILED ACTION*****Election/Restrictions***

Claim 1 has been amended to include subject matter directed to an invention that is independent or distinct from the invention originally elected for the following reasons: claim 1 has been amended to include the structure corresponding to non-elected fig. 4 (note the election of fig. 1 in the paper filed 10/28/02). Accordingly, claims 1,6 and 12-15 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 19 is rejected under 35 U.S.C. 102(b) as being anticipated by Aoki 4971436.

Aoki shows a projection optical system including a plurality of aspheric curved mirrors(21,23,24) wherein image

distortion is less than or equal to 0.5% and brightness unevenness is less than or equal to 20% (see col. 3 lines 37-42).

***Allowable Subject Matter***

3. Claims 16-18 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: the prior art does not teach or suggest a display apparatus having the specific optical configuration and which satisfies the conditions set forth in the combination of claim 16.

***Response to Arguments***

5. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the withdrawal of claim 1 as set forth above. Applicant's arguments with respect to claim 19 are moot in view of the new grounds of rejection.
